Raport

1) Firefox

#Bug1.1

Application doesn't open

Priority: Blocker

Description:

App doesn't work on Firefox

Steps to reproduce:

1. Open link
2. Open console to see details

Expected result: Application works on Firefox

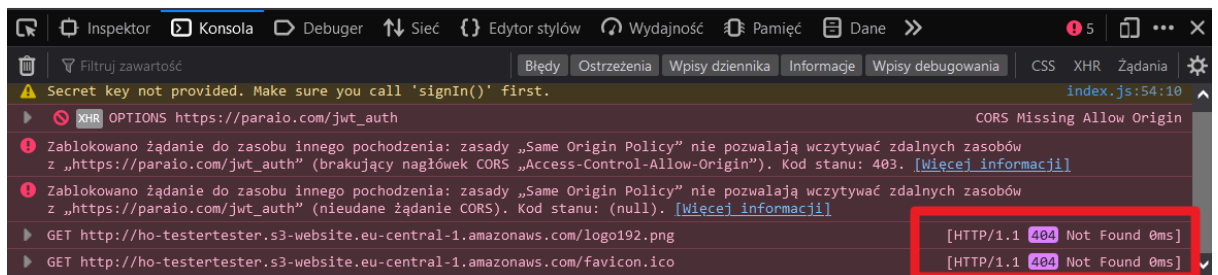

#Bug1.2

Application doesn't open

Priority: Blocker

Description:

After refresh app - error 404

Steps to reproduce:

1. Open link
 2. Refresh the page
 3. Open console to see details.
- Expected result: Application works on Firefox

2) Google Chrome

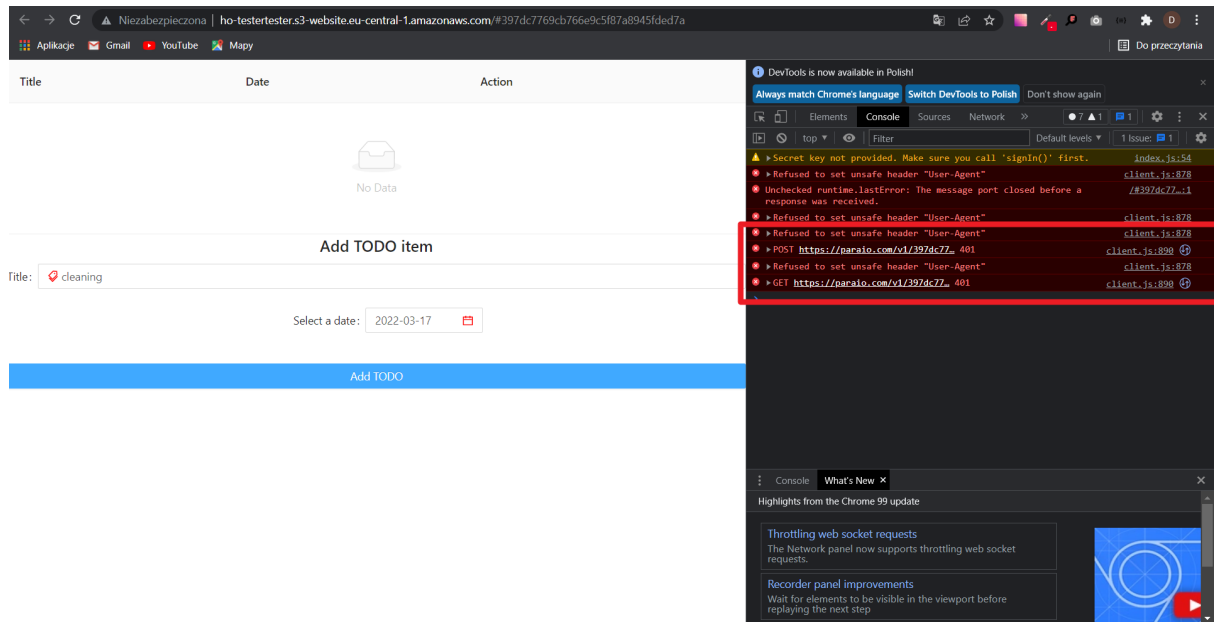

#Bug2.1

Incorrect addition

Priority: Major

Description:

After entering the word “cleaning” and clicking “add TODO item”, the item is not added. Appears message “TODO added”

Steps to reproduce:

1. Open link
2. Enter required word (m.in 5 letters), for example “cleaning”
3. Click “add TODO item”

To make the addition work:

After refreshing the page, enter “cleaning” word to the right place and click “add TODO item”, item has been added. Message was displayed.

Steps to reproduce:

1. Open link
2. Enter required word (m.in 5 letters),for example “cleaning”
3. Click “add TODO item”
4. Refresh the page
5. Enter a word and click “add TODO item” again.

Expected result: refreshing the page is not needed to add items.

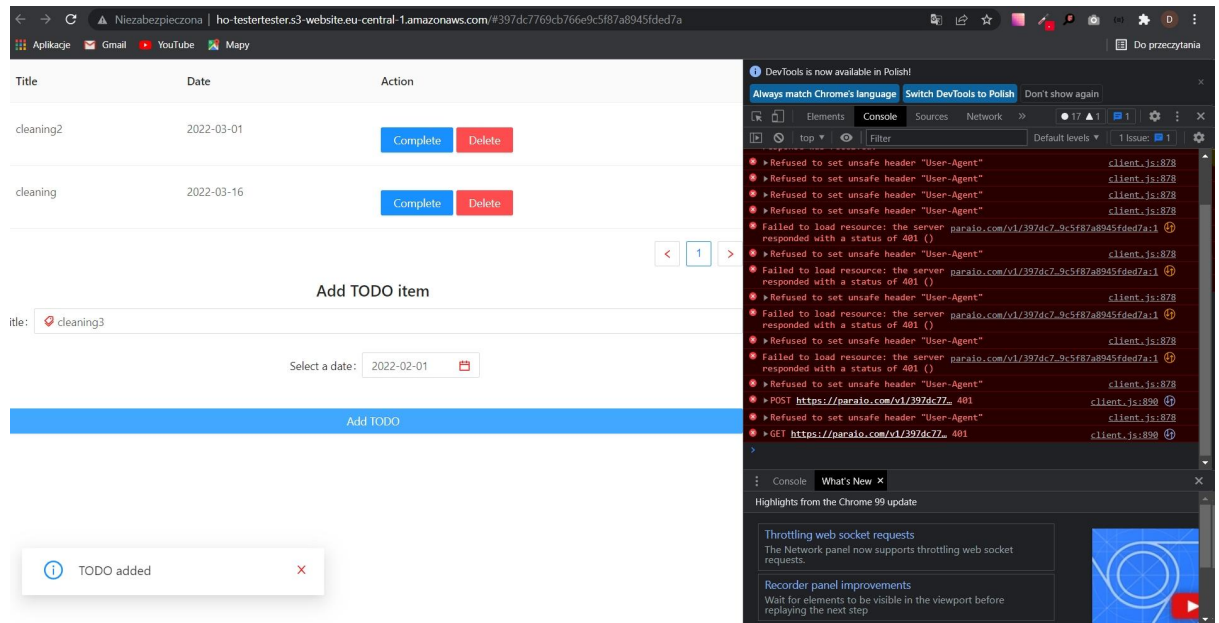

#Bug2.2

Incorrect addition

Priority: Major

Description:

When adding more products, the situation repeats itself.

Steps to reproduction:

1. Open link
2. Enter required word (m.in 5 letters), for example "cleaning"
3. Click "add TODO item"
4. Refresh the page
5. Enter a word and click "add TODO item" again.
6. Enter another word and click "add TODO item" again

Expected result: refreshing the page is not needed to add items.

b) #Bug3

Incorrect "complete" and "delete"

Priority: Major

Description:

"Complete" and "delete" problems are similar to problems with incorrect adding.

You have to refresh the page to "complete" and "delete" to work. Sometimes it doesn't work, and you should switch tabs in the browser, come back to the app, click "complete" or "delete" and refresh the page. (attachments: Movie1 and Movie2)

Steps to reproduction:

1. Open link
2. Enter required word (m.in 5 letters), for example "cleaning"
3. Click "add TODO item"
4. Refresh the page
5. Enter a word and click "add TODO item" again
6. When you have base of words, try click "complete" or "delete"

To make the buttons work:

7. Refresh the page
8. Try click “complete” or “delete” again

If it doesn't work try another way:

Steps to reproduction:

1. Open link
2. Enter required word (m.in 5 letters),for example “cleaning”
3. Click “add TODO item”
4. Refresh the page
5. Enter a word and click “add TODO item” again
6. When you have base of words, try click “complete” or “delete”

To make the buttons work:

7. Switch tab in browser
8. Come back to app
9. Try click “complete” or “delete” again
7. Refresh the page
8. Try click “complete” or “delete” again

Expected result: refreshing the page or switch tab is not needed to “complete” or “delete” items.

c) #Bug4

Adding past date

Priority: Minor

Description:

Dates are not validated - you can add item with date from the past

| Title | Date | Action |
|-----------|------------|---|
| cleaning6 | 2020-07-14 | <button>Complete</button> <button>Delete</button> |
| cleaning5 | 2026-08-18 | <button>Complete</button> <button>Delete</button> |
| cleaning4 | 2022-03-31 | <button>Complete</button> <button>Delete</button> |
| cleaning3 | 2022-03-22 | <button>Complete</button> <button>Delete</button> |
| cleaning2 | 2022-03-01 | <button>Complete</button> <button>Delete</button> |
| cleaning | 2022-03-16 | <button>Complete</button> <button>Delete</button> |

Steps to reproduction:

1. Open link
2. Enter required word (m.in 5 letters),for example "cleaning" date "16.03.2022"
3. Click "add TODO item"
4. Refresh the page
5. Enter a word and click "add TODO item" again
6. Item was added and validation appears.

Expected results: You can't add item with date from the past

- 3) Microsoft Edge - Application works the same as Google Chrome browser.
